

2006 Awards of Distinction

September 28, 2006, Niagara Fallsview Casino Resort, Niagara Falls, Ontario

The Ontario Home Builders Association *Awards of Distinction* are important for the way in which they recognize the highest levels of achievements in the home-building industry. The *Awards of Distinction* honour the visions of some of the province most creative builders.

A record number 440 entries were submitted this year from some of the finest builders from all across Ontario.

METRIC HOMES was nominated as one of 3 finalists in a category for its Arbourbrook Estates model home, the Arbourbrook III. By itself, this nomination was already a high achievement.

METRIC HOMES took home the **FIRST PLACE AWARD** for the **MOST OUTSTANDING PRODUCTION BUILT HOME** 1 storey 1900 sq. ft. and over, in all of Ontario.

METRIC HOMES is the only Ottawa homebuilder to receive an award this year.

The Arbourbrook III is a 3875 sq. ft. bungalow. This impressive model home is located in the upscale community of Arbourbrook Estates on a large 2 acre estate lot surrounded by walking trails, green space, mature trees, and a meandering creek that combine to provide an aura of tranquility. Consistent with its natural surroundings, the Arbourbrook III is **Canada first Energy Star rated home** for its higher level of energy efficiency. It is also the **OCHBA Fall 2005 BEST DESIGN AWARD WINNER.**

Meet with one of Metric Homes owners, Michel Charlebois or Pierre Bernier, and enjoy the most amazing experience of customization, flexibility, attention to details and industry knowledge, all without paying a premium for it.
