

Specifications

Foundations and Concrete Floors

- Concrete foundation walls: minimum 8" with reinforcing steel bars
- Drain tile: 4" perforated, around perimeter of foundation
- Basement floor: 3" concrete with trowel finish
- Garage floor: 4" concrete with broom finish
- Platon drainage system on exterior foundation walls of living areas (waterproofing)
- Cement parging on external exposed foundation walls

Structural

- Double sill plates on foundation
- Engineered steel posts and beams (as per plan)
- Floor joists: pre-engineered system at maximum of 19.2" on centre
- Floor sheathing: Designed with 5/8" OSB tongue and groove sheathing, upgraded to 3/4" moisture-resistant subfloor on site (increases floor stiffness); screwed & glued to joists, sanded at joints
- Ceilings: 9' on main floor, 8' on 2nd floor
- Detached home external wall construction: 2"x6" kiln dried studs at 16" centers with 1-11/16" exterior insulated structural sheathing
- Townhome external wall construction: 2"x6" kiln dried studs at 16" centres with 7/16" exterior OSB sheathing
- Internal wall construction (typical): 2"x4" kiln dried studs at 16" centres with 1/2" drywall
- Perimeter basement walls: interior framed to floor, 2"x6" kiln dried studs at 24" centers
- Roof: trusses manufactured as per engineered designs with full height heel for better insulation & 1/2" OSB sheathing with 'H' clips
- Rear deck: 4'x7' pressure treated with steps to grade (modified in some cases due to design)

Exterior Finishes

- **Front elevation: 3' to 4' of brick skirt & pillars on each side of garage door (when on front elevation) with remainder in James Hardie Plank® Lap Siding**
- **Side and rear elevations: James Hardie Plank® Lap Siding**
- Soffit and fascia: aluminum, standard colour selections
- Porch posts: smooth aluminum painted (standard colour selections) with base and cap, or Cedar with clear coat and black aluminium base
- Asphalt shingles: self-sealing, high grade architectural design
- Roof underlay: upgraded from standard felt to premium product
- Roof vents: "Maxx" style raised vents, high efficiency
- **Townhomes: Eavestroughs included**

Insulation and Vapor Barrier

- **Detached Home Ext. wall: R5.6 continuous, R20 fiberglass batt**
- Townhome Exterior Wall: R24 fiberglass batt
- Ceiling insulation: R60 blown fiberglass
- Cathedral ceilings: R31 fiberglass batt
- Exposed floors: R31 Spray Foam
- Garage ceilings with finished room above: R31 1/2 lb spray foam
- **Basement walls: R6 continuous insulation against foundation, Roxul R22 batt between studs**
- **Townhome basement floors: R5 underslab insulation**
- Headers: 2lb closed cell spray foam covered in Roxul batt
- Windows & Doors: spray foamed around perimeter

- Vapor barrier: 6 mil. polyethylene, continuous
- Caulking: all exterior walls at 2"x6" wall plates and at double studs

Windows & Exterior Doors

- Windows: ENERGY STAR certified (Low-E & Argon gas), thermal seal, double glazing, screens on operable windows
- **Front door: 2 std styles with clear glass, insulated, steel clad, exterior colour painted with weather stripping & aluminum sill**
- Front door options: choice of 34" wide front door with 12" clear glass side light and transom OR 36" wide front door with 12" transom
